When Did I Get Old by Derrick Dove & The Peacekeepers (Capo 3rd)

G   G   G----D----G

[Chorus]

                     G   G
When did I get old, when did everything change?

     G   D
I don't recognize this world; I don't remember this pain.

                  G   C
Did time speed up... or did I slow down?

                G----D----   G
When did I get old?   It's all behind me now.

[Verse 1]

                 G   G
I used to fly so high and not fear a thing,

     G   D
I was ten foot tall; everybody knew my name.

                     G   C
But the world keeps turning... statues begin to fall.

                G----D----   G
and now I'm just a man... that used to have it all.

[Chorus]

                     G   G
When did I get old, when did everything change?

     G   D
I don't recognize this world; I don't remember this pain.

                  G   C
Did time speed up... or did I slow down?

                G----D----   G
When did I get old?   It's all behind me now.

[Verse 2]

                         G   G
Well, there ain't much left, of the man I was.

        G   D
I'm just a r-u-s-t-y outline covered in dust.

                      G   C
But it happens to the best... the best of us all:

            G----D----   G
another one rises... while another one falls.

[End-Chorus]

                G   G
When did I get old, when did everything change?

        G   D
I don't recognize this world; I don't remember this pain.

                 G   C
Did time speed up... or did I slow down?

                G----D----   G
When did I get old?   It's all behind me now.

                G----D----   G
When did I get old?   It's almost over now.
