

# Better Days by Niko Moon (Capo 6th)

[Intro] Em---D---C---G-----Em---D---C---G-----

## [Verse 1]

When the stars are burning out... and the waves are crashing in.

Running circles in my mind... Got me searchin' for a light...

That can guide me home again.

When I'm in a hurricane... and the waters start to r-i-s-e.

While the lonely and the thunder... wanna try and take me under,

But I swim against the tide.

n' I been, caught in stormy weather... but nothing lasts forever...

That morning sun-rise gonna remind me. **I still got...**

## [Chorus]

Good friends that I've never met...

And some... big dreams that I'm tryin' to catch...

And some... memories that I wanna get...

But I still ain't got to make. *\*And I know I'm 'bout to make.*

And it's a... simple life that I wanna live...
