

Live and Learn by Mike Adams (Capo 2nd)

[Intro] G* Em* G* Em*

[Verse 1]

Woke up this morning, feeling kinda low,
Thinkin' 'bout the times, that helped me to grow.
Every step that I've taken, showed me how to stand,
Carrying my troubles... making my own plan.

[Chorus]

We live and learn, through the ups and downs,
Finding our way, while wearing our crowns.
With every lesson, marked in the lines of our hands,
From joy to heartache, together we stand.

[Verse 2]

Saw some friends stumble... so I helped them back up,
'Cause some of life's burdens, can overflow your cup.
While sharing this journey, through sunshine and rain,
If there's one thing I've learned... love must remain.

[Chorus]

We live and learn, through the ups and downs,
Finding our way, while wearing our crowns.
With every lesson, marked in the lines of our hands,
From joy to heartache, together we stand.

[Bridge]

Sometimes it gets tough, and we lose our way,
and every twist of fate, come what may.
Hold onto your dreams, let them light up your night,
In this life together, we'll be alright.

[Verse 3]

Here's to the moments, that make us who we are,
Finding our place, no matter how far.
With every stumble, we sing our own song,
Living in this world we built... together we belong.

[Chorus]

We live and learn, through the ups and downs,
Finding our way, while wearing our crowns.
With every lesson, marked in the lines of our hands,
From joy to heartache, together we stand.

[Outro]

So take my hand, let's walk this line,
Through the light and dark, we'll be just fine.
With every new day, there's a chance to grow,
In this life together, we'll learn as we go.
