

If You Want Me to Stay by Mike Adams (Capo 2nd)

Intro G* Em* G* Em*

Verse 1

Been tired for a while... you're quiet these days.

I'm tryin' to hold on, but I'm slippin' away.

Still, somethin' in me, don't wanna let go.

Chorus

If you want me to stay... say it like you mean it.

Take my shakin', hands... let me know you feel it.

I don't need much... just a little pull my way...

If you want me to stay.

Verse 2

We've both missed signs... said more than we should.

But there's something here still... something still good.

I'm willin' to meet you... right where we stand.

Chorus

If you want me to stay... say it like you mean it.
Take my shakin', hands... let me know you feel it.
I don't need much... just a little pull my way...
If you want me to stay.

Bridge

I don't need the whole truth... Just a light in the dark.
Tell me you're still in it... I'll follow that spark.

Final Chorus

If you want me to stay... say it like you mean it.
Take my shakin', hands... let me know you feel it.
I don't need much... just a little pull my way...
If you want me to stay. Ohhh
If you want me to stay. Mmmm
If you want me to stay.
