

While the Porch Light's On by Mike Adams (Capo 4th)

Intro G x4

Verse 1

I still see your number, saved inside my phone.
The last call was a Tuesday, now it's been so long.
We fought about the smallest things, that I can't name,
And I told myself tomorrow, I would take the blame.

Pre-Chorus

But tomorrow has a way, of turning into years,
And silence builds its houses out of pride and fear.

Chorus

So, call while the porch light's on.
Don't wait till the morning comes, and they are gone.
Say the words you've been swallowing, let the walls come down.
Go while the p-o-r-c-h light's on.

Verse 2

Daddy kept his feelings, like a hand of cards.
I learned to do the same, and now we're playing hard.
But I watched him at the window, in that fading light,
And I wonder if he's waiting for me... to make it right.

Pre-Chorus

We say we'll have the time, we say "someday, soon,"
But the calendar is lying and it's running out of room.

Chorus

So, call while the porch light's on.
Don't wait till the morning comes, and they are gone.
Say the words you've been swallowing, let the walls come down.
Go while the p-o-r-c-h light's on.

Bridge

The things left unsaid, become the heaviest stones.
You can carry them forever, or you can carry them home.
There's a voice on the other end, that won't always answer.
There's a door that's still open — go before it isn't.

Final Chorus

Call while the porch light's on.
Don't wait till the morning comes, and they are gone.
I love you is a small thing, but it's everything — say it.
Gooooooo-ooo-ooooooo... while the porch light's on.

Outro

I still see your number... hmmm
I still see your number... saved inside my phone.
