

# How Far You've Come by Mike Adams (Capo 6<sup>th</sup>)

**[Intro]** G-----G-----G-----G-----

## **[Verse 1]**

When the road feels heavy... and your hope runs thin.  
When the world starts asking... where your strength has been.  
Take a quiet moment... let your heartbeat slow.  
Every mile behind you... helped the real you grow.

## **[Pre-Chorus]**

You've stood in places... you thought you'd never stand.  
Yet here you are... still rising again.

## **[Chorus]**

When you start to doubt the climb...  
Look back on the mountains you've left behind.  
Every hurt, every storm you've weathered through...  
There's a strength in you that carried you through.  
You're stronger than you k-n-o-w... look how far you've come.

## **[Verse 2]**

You've walked through the fire... you've stood in the rain.  
You gathered the pieces... and rebuilt from pain.  
Nights felt unending... but you found your light.  
If you made it through those moments...  
you'll make it through tonight.

### [Pre-Chorus]

You've stood in places... you thought you'd never stand.  
Yet here you are... still rising again.

### [Chorus]

When you start to doubt the climb...  
Look back on the mountains you've left behind.  
Every hurt, every storm you've weathered through...  
There's a strength in you that carried you through.  
You're stronger than you k-n-o-w... look how far you've come.

### [Bridge]

Every step was proof... you're built to endure.  
You've conquered old fears... and you'll conquer more.  
So lift your eyes... let your heartbeat lead.  
You've made it this far... you've got all you need.

### [Chorus]

When you start to doubt the climb...  
Look back on the mountains you've left behind.  
Every hurt, every storm you've weathered through...  
There's a strength in you that carried you through.  
You're stronger than you k-n-o-w... look how far you've come.

### [Outro]

And when the night grows long... and you're fighting the weight.  
Remember your journey— You rise, you heal, you make it.
