

The Way You Stay by Mike Adams (Capo 3rd)

[Intro] G-----C--G----- Em-----D-----

[Verse 1]

You never chase the spotlight... you don't need to make a scene.
You just pull a chair beside me... when the world feels mean.
No speeches, no diamonds... no promises on display.
Just a quiet kind of comfort... in the way you stay.

[Chorus]

It's the way you stay... not the words you say.
You're the steady in my evenings... the calm in my days.
Love don't need fireworks... to light up this place.
It shines in the simple... in the way you stay.

[Verse 2]

You show up in the small things... coffee in my hand.
You listen while I untangle... what I don't understand.
You don't fix e-v-e-r-y problem... but you help me find my way.
Just by being right beside me... in the way you stay.

[Chorus]

It's the way you stay... not the words you say.
You're the steady in my evenings... the calm in my days.
Love don't need fireworks... to light up this place.
It shines in the simple... in the way you stay.

[Bridge]

Some folks love loud... but you love slow.
And somehow that's the kind... that takes root and grows.
I don't need a reason... don't need you to explain.
I just fall a little deeper... in the way you stay.

[Chorus]

It's the way you stay... not the words you say.
You're the steady in my evenings... the calm in my days.
Love don't need fireworks... to light up this place.
It shines in the simple... in the way you stay.

[Outro]

No grand declarations... no sweeping displays.
Just you... and the quiet... in the way you stay.
