

Just Be You by Mike Adams (Capo 4th)

Intro C-----F-----C-----F-----

Verse 1

Stop looking in the glass... waiting for a change to pass.
The clothes don't make the soul... just play your own true role.
The world wants you in line... but you were built to shine.

Chorus

So let the real you out... without a single doubt.
No mask, no heavy screen... be the best they've ever seen.
Stand tall and take your space... ...with a smile upon your face.

Verse 2

The noise is loud out there... but you don't have to care.
They'll try to box you in... but that's a race they'll never win.
Your pulse is like a drum... showing where you're coming from.

Chorus

So let the real you out... without a single doubt.
No mask, no heavy screen... be the best they've ever seen.
Stand tall and take your space... ...with a smile upon your face.

Bridge

It's okay to be different... it's okay to be loud.
You don't need a reason... to stand out, from the crowd.
Break the lock and find the key... set your spirit wild and free.

Chorus

And let the real you out... without a single doubt.
No mask, no heavy screen... be the best they've ever seen.
Stand tall and take your space... ...with a smile upon your face.

Outro

Just be you... yeah, just be you... ...the light is bright.
The fit is right... ... just be you.
