

Rise Together by Mike Adams (Capo 1st)

Intro G-----Em-----C-----G-----

Verse 1

G Em C D G
The storm came down without a warning... Left nothing standing but the sky.
G Em C D G
And by the time we saw the morning... We didn't have to ask each other why.
G Em C D G
Strangers showed up at the doorway... With water, with blankets, with bread.
G Em C D G
Nobody asked about tomorrow... Just "what do you need now instead?"

Chorus

G Em
We rise together when we fall... We find each other through the dark.
C
The ones who barely knew your name.
G
Come running toward the broken heart... Class and color, all the fences.
Em C D G
Washed away like everything. We rise together. We rise together.

Verse 2

G Em C D G
The candles burning in the evening... A circle made of open arms.
G Em C D G
No words to hold the weight of grieving... So strangers hold us through the harm.
G Em C D G
Donation lines stretch around the corner... ...Hands that never touched before.
G Em C D G
In the wreckage we remember... What all of it was ever for...

Chorus

We rise together when we fall... We find each other through the dark.
The ones who barely knew your name.
Come running toward the broken heart... Class and color, all the fences.
Washed away like everything. We rise together. We rise together.

Bridge

We're not as alone as we feared... Grace shows up in broken people,
who still choose to appear... ...When everything is stripped away...
Our instinct isn't to scatter... ...We gather, we s-t-a-y...
We gather, we stay.

Verse 3

Years from now I'll see your face... ...across a street, across a room.
And we won't need a single word... We both know what we came through.

Final Chorus

We rise together when we fall... We find each other through the dark.
The ones who barely knew your name.
Come running toward the broken heart... We're all vulnerable, we all bleed.
We all need each other still... We rise together... ...And we always will...
